

# Telehealth **VS** Telemedicine

*What's the difference?*

## Telehealth

Deliver patient health care, education, and information services remotely.

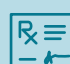

## Telemedicine

Evaluate, diagnose, and treat patients remotely.

### CLINICAL & NON-CLINICAL SERVICES

-  Appointment Scheduling
-  Patient Engagement & Education
-  Physician Training
-  Store & Forward
-  Remote Vitals Monitoring
-  Wearables

### CLINICAL SERVICES

-  Symptoms discussion
-  Advice on medical issues
-  Diagnosis
-  Medical prescription

### BENEFITS

- ✓ Continuity of care
- ✓ Greater accessibility
- ✓ Less strain on caregivers
- ✓ Convenience
- ✓ Cost savings
- ✓ Fewer appointment cancellations

PATIENT & PROVIDER  
**Advocates**  
for Telehealth
